This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

The year 1883 commenced with a balance in the Treasury of the city of $37,964 35. All current expenses have been promptly met and paid as they became due. The Temporary Loan of Fifty thousand dollars, which was found necessary at the beginning of the year, has been paid off, and the close of the year finds the city free from all floating indebtedness, and the sum of $137,550 52 in the Treasury, which will be ample to meet all demands upon the city of every kind, until the receipts from taxes due for the year 1884 shall come in.

It is gratifying to be able to state that the close of the year finds the financial affairs of the city in a better condition than perhaps at any previous time in its history. The credit of the city is second to none in the country, Municipal bonds bearing the low rate of four per cent, commanding a premium, and finding a ready market at home.

Whilst the current expenses have been fully met as above stated, it has been thought expedient to make a loan to meet the cost of the New Bridge over the channel to Herr's Island, which is permanent in its character, and should not be considered among the annual expenditures of the city. This loan however, amounting to $17,000 00, will be but temporary and will be provided for and paid in the year ensuing.

This improvement, rendered necessary by the floods of last Spring, in consequence of the old bridge being swept away, will open up a free bridge to our citizens in the future, thus doing away with the tolls collected heretofore by the owners of the private bridge which formerly spanned the channel aforesaid.

In addition to the above loan it has been found necessary to issue Sixty-four thousand dollars new Water Bonds, bearing four per cent. interest, running twenty years, to meet the expense of a new water main, from the Reservoir to James street, connecting with the mains on North avenue and Ohio street, for the purpose of furnishing a full supply of water to the lower portions of the city.

This improvement was found absolutely necessary, as the supply of water was inadequate, and particularly so in case of fire.

This, also, is permanent in its nature, and the improvement will largely repay the interest outlay, and the require-

Digitized by Google

ments of the Sinking Funds, by the revenues from the increased water furnished. With the above issues of new bonds, the indebtedness of the city will only be increased Twenty-one thousand dollars, as the difference will represent the amount liquidated during the current year, as will appear elsewhere in this report.

The improvements now being made at the Water Works, viz: — the construction of two new pumping engines and the erection of the necessary buildings, will require an outlay of $132,000 00. This must be met with the proceeds of a new loan during the ensuing year, which can be readily placed at four per cent. This large expenditure was made necessary by the increasing demand of our growing city for a better water supply, and was daily apparent to every citizen.

The growth of the city, both in dwellings and manufacturing establishments, has been uninterrupted and promises to continue. The demand for more water has been constant for some years back and it is thought by competent persons, that the new works now being constructed, will be ample to supply every demand for many years to come.

It is fortunate for the city that, whilst this work was compulsory, in fact, the low rate of interest, and cheapness of material and labor, have enabled the work to be done in a very economical, and at the same time, satisfactory manner.

Maturing Bonds.

During the year 1884, the following bonds will become due, viz: Seventy-five thousand seven per cent. Sewer Bonds; Twenty thousand seven per cent. Refunding Sewer Bonds; Sixty thousand Troy Hill Bonds, four and one-half per cent.; Thirteen thousand five per cent. McClure Avenue Bonds; Eighteen thousand five per cent. Charles Street Bonds; making a total of $186,000 00. Of these the Sixty thousand Troy Hill Bonds will be paid out of the moneys in the hands of the Sinking Fund Commission, belonging to that particular fund. About one-half of the Charles Street Bonds can also be paid by provision of that fund. The remainder can be renewed, or provided for, at a lower rate of interest, as they become due.

Digitized by Google

Sinking Funds.

The Commission during the past year have paid and cancelled $22,000 00 four and one-half per cent. Renewal Sewer Bonds; $13,000 00 four per cent. Refunding Sewer Renewal Bonds; $10.000 00 four and one-half per cent. Troy Hill Improvement Bonds; $19,000 00 four and one-half per cent. Charles Street Renewal Bonds; in all, $64,000 00; and have invested surplus cash in their hands, viz: $8,000 00 four and one-half per cent. Renewal Sewer Bonds, and $7,000 00 in four per cent. Refunding Sewer Renewal Bonds of the city.

The Commission have earned for the city since their organization, October 1st, 1880, through the investment of the funds in their charge, the sum of $16,974 62. They have also paid off and cancelled during the same time, $152,000 00 of the indebtedness of the city.

They hold at this time loans of the city amounting to $189,500 00 of various issues, at par, and cash on hand, $8,559 19, making a total of $198,059 19.

The Commissioners, it will be understood, are limited to the funds provided in each particular Sinking Fund; they cannot use the moneys provided for meeting one issue of bonds, in payment of other bonds, nor can they cash any bonds until they become due without paying the market price, always above par, hence they are compelled to limit payment to such bonds as are authorized by the fund provided therefor, and which are due.

In closing my Twelfth Annual Report of this department, I desire to thank your honorable bodies for the kind appreciation and courtesy shown me in the discharge of my official duties, and your cordial co-operation with me in everything tending to reduce the debt, and place the finances of the city on a solid basis.

Respectful reference is made to the accompanying documents, showing in detail the Receipts and Expenditures of the city during the year.

Respectfully submitted,

JAMES BROWN,

Comptroller.

CITY OF ALLEGHENY, SS.

Personally appeared James Brown, Comptroller of the City of Allegheny, who, being duly sworn according to law, deposed and said that the statement of the fiscal affairs of said City of Allegheny, for the year 1883, submitted herewith, is correct and true, to the best of his knowledge and belief.

JAMES BROWN,
City Comptroller.

Before me, this 10th day of January, A. D. 1884.

L. PETERSON, JR.,
Mayor.

Report of City Assessor.

To the Honorable the Select and Common Councils of the City of Allegheny:

Gentlemen:—I would respectfully submit through your Committee on Finances the following tabular statements, showing the cash valuation of the City, amount of tax levy, and number of resident and non-resident taxables in the City, assessed in accordance with an ordinance entitled "An ordinance levying taxes and making appropriations for the year 1883."

Respectfully submitted,

John C. Hetzel,

City Assessor.

Report of the City Solicitor.

To the Honorable the Select and Common Councils of the City of Allegheny:

The following report of the legal department of the City for the year 1883 is respectfully submitted.

During the year I have filed 68 liens for delinquent assessments.

I have collected and paid over to the proper officers the following amounts, viz.:

Grading and Paving Assessments	$29,886 82
Sewer Assessments	3,016 30
Street Opening Assessment	285 96
Repairing side-walks	207 34
Delinquent Taxes	419 67
Rents of City Property	304 00
	$34,120 09

The following suits have been brought against the City, viz.:

J. P. Padden and wife, No. 75, January Term, 1883, to recover damages for the failure of the City to widen West End avenue.

Mary McGuire, No. 282, September Term, 1883, to recover damages for personal damages sustained by falling over a gas pipe in the Diamond Square.

James Andrews, No. 144, July Term, 1883, to recover an assessment of benefits for the opening of Morris street.

C. C. Hussey, for damages for trespass by reason of the construction upon his property of the Church avenue wall.

Jas. Arthurs and others, No. 359, January Term, 1883, bill in equity to restrain the Board of Health from locating a small-pox hospital on Warren street.

Jno. Campbell & Son, No. 148, June Term, 1883, to the wharf, to recover damages for coal flats carried away in high water. The allegation being that the loss was caused by the Pittsburgh & Western Railroad removing the wharf posts.

Digitized by Google

Jas. Andregg, No. 247, December Term, 1883, action to recover damages resulting from being thrown over the bank at East Ohio street.

The following is the action taken during the year in the most important cases:

Mueller *vs.* the City. Action to recover damages for detaching a ferrule on Hazel Street, in which was a verdict against the City for $250. A new trial was granted and the case has not yet been tried.

Bigham *vs.* the City. Action to recover for armory rent. Tried and a verdict $500. On a motion for a new trial the verdict was ordered by the Court to be reduced to $300 or a new trial would be granted. The reduction was made. I then took the case to the Supreme Court, where it was argued, but six of the seven Judges being present. The Judges were equally divided on the case, and as a result the judgment is affirmed.

Padden and wife *vs.* the City. No. 97, October Term, 1882. Tried, and the Plaintiff non-suited. A new suit has been brought, as stated above.

The City *vs.* the Federal Street and Pleasant Valley Railway. Action to recover tax on dividends due the City under the ordinance granting the right of way The defense was that the Company was not bound by this provision of the ordinance, having no power under its charter to enter into such an ordinance. The Court below, after argument, entered judgment against the Company for the sum claimed, viz.: $1460. The Railway Company took the case to the Supreme Court, where the judgment of the lower Court was affirmed. This decision is important, as it establishes the right of the City to impose terms upon corporations using the streets, and to enforce them.

A Bill in Equity to restrain the City from collecting taxes assessed upon the Pittsburgh and Allegheny Orphan Asylum was argued and an injunction granted. This went upon the ground that all institutions of purely public charity are exempt from all taxation. It is useless to assess such institutions, as they are clearly exempt.

Digitized by Google

I filed a libel against the ferry-boat Wm. Thaw, to recover arrears of wharfage, amounting to some $900. The testimony has all been taken, but the case not yet argued.

The case of Arthurs and others to restrain the erection of a smallpox hospital was argued, on a motion for a preliminary injunction to restrain the Board of Health from proceeding in the case. The injunction was refused.

In addition to the above, the usual amount of business of no public importance was transacted.

Report of the City Engineer.

Office of the City Engineer,
City of Allegheny *December* 31, 1883.

To the Honorable the Select and Common Councils of the City of Allegheny:

Gentlemen:—I have the honor of submitting to you a report of the Engineer's department, giving an account of the business transacted in this office and the public improvements made under the direction of the same during the past year.

Lot Registry.

One thousand two hundred and sixty-five abstracts of title-papers were taken and entered and plotted in the official books.

Permits for Sewer Connections

Have been granted to the amount of 238. In 30 cases the applicants had to pay a fee for the privilege, according to a provision in our sewer laws; the money thus collected and paid to the City Treasurer amounted to $725.

Lot Surveys.

The surveys made for the purpose of lot regulations reached this year the number of 144, yielding a revenue of $763 to the City.

Other work done in and under the supervision of this office, as construction of streets and sewers, surveys and plans made for street openings, profiles prepared for street grades, etc., may be seen from the following tables:

Digitized by Google

In addition to the above, numerous plans and estimates have been made for public improvements not yet disposed of. A plan and estimate was made for the construction of a street from Ridge avenue to the top of the Monument Hill; also, a plan for the improvement of Ohio street from Pine street to McFadden street and from Bridge street to the City line. A plan was prepared of the property of the Voegtly's heirs adjoining the water basins, showing the topography of the ground and its convenience in regard to the contemplated extension of our present reservoirs, etc., etc.

The limited force of the office did not allow us to make very extensive surveys during the last year for the purpose of establishing land marks, still every opportunity has been embraced, to extend and improve our system of street monuments, and a good progress may also be reported in this direction.

It has been the custom of late years, to publish a general map of the city with the annual reports. A map of this kind, showing the complete sewerage system of the city, has been prepared this time and is ready for publication.

Last year's events have caused to our city a considerable amount of unexpected expenditure. In the beginning of the year the rivers rose to an unusual height, the Allegheny reaching nearly 28 feet above low water mark. The floods, carrying great masses of ice, rafts, fragments of destroyed buildings, etc., proved to be very disastrous in their course all along the river and swept away the wooden bridge connecting Herr's Island with the city. This necessitated the construction of an entirely new bridge and the repairing of the greatly damaged abutments. A new iron bridge was built since on the old site by the Pittsburgh Bridge Company at a cost of $12,653.29, and the reconstruction of the abutments, carried out by Messrs. Buente, Kaiser & Company, involving on the city an expense of $3,363.50. The present bridge has a clear span of 240 feet, and a width of 18 feet, all cartway. The elevation of the floor is 38 feet above low water mark, about one foot higher than the former bridge, and corresponds in clearance over the river-bed with other bridges across the Allegheny river.

A new abutment also had to be built at the western end of the Lowrie and Ravine street bridge, the old abutment being a very poor structure, not able to stand the pressure of the

Digitized by Google

ground. This work was done by Mr. F. Altvater, contractor, the cost amounting to $1,405.19.

Great damage was done to our public sewers by the heavy rain storms of July and August, especially to the main sewers of Bayard street and the Butcher's Run. The inverts of both sewers were, in many places, entirely ripped, and the Bayard street sewer in consequence broke down for a considerable length. To prevent greater damages, repairs had to be made in the most speedy and vigorous manner at a cost of upwards of $3,000.

A close investigation developed the fact that the brick inverts were gradually grinding away, and that especially the Butcher's Run sewer, which at times of heavy rain storms carries with its waters a good deal of rock and other hard substance from the hilly districts at a great velocity, needs constant watching, since about one fifth of its entire length was found more or less defective. This shows plainly that even hard burned brick forms no good material for the inverts of sewers, especially where such sewers drain hilly districts at a heavy grade; and that in future, material of a more durable character must be employed for this purpose. In my opinion Granite block, laid in cement mortar, would be highly recommendable, and the same has already been used in our late repairs as far as practicable.

In conclusion I would say a few words about our Registry-books. Since, as a matter of course, our Lot Registry is getting more complete every year; the public is more and more appreciating the value of this institution by calling frequently at this office for information in regard to ownership and description of real estate. The consequence is, that the heavy and unwieldy books are gradually wearing out by frequent handling, and some of the older ones in fact are damaged already to such an extent that reproduction becomes a matter of great necessity. It would be a wise plan, therefore, to have duplicate books procured at once, and the old and mutilated books, one by one copied, as the occasion demands, before any valuable data get lost.

The following gentlemen at present constitute the force of this office:

ANNUAL REPORT

OF THE

COMMITTEE ON FIRE DEPARTMENT.

To the Honorable the Select and Common Councils:

GENTLEMEN:—Your Committee on Fire Department in presenting their annual report for the year 1883 have but little of interest to communicate, as the accompanying report of the Chief Engineer of the Fire Department gives in detail a very comprehensive statement of the affairs in our Department, as well as the cost of the same.

The Department in every particular is in a first-class condition, and we can suggest no improvement, only the adding of an additional Company, as it is a well-known fact that for a city of the size of ours that the Department is too small, and we are therefore favorable to granting the prayer of our citizens in the Fifth ward in placing a new Engine and Hose Company in their vicinity.

The completion of the new engine house in the Eighth ward is an improvement that will add greatly to the efficiency of the Department, and we find it to be a well-arranged and convenient building for the purposes intended.

We respectfully call your attention to the suggestions of our worthy Chief Engineer as set forth in his report, as they will be found of interest.

Respectfully submitted.

WM. SWINDELL,
Chairman.

REPORT OF THE CHIEF ENGINEER

OF THE

FIRE DEPARTMENT.

OFFICE OF CHIEF ENGINEER FIRE DEPARTMENT,
CITY OF ALLEGHENY, December 31st, 1883.

To the Honorable the Select and Common Councils of the City of Allegheny:

GENTLEMEN:—Agreeable to the provisions of the ordinance creating the office of Chief Engineer of Fire Department, I have the honor to transmit for your consideration my annual report for the year ending December 31st, 1883, presenting a statement showing in detail the expense of maintaining the Department during the year, together with such recommendations and suggestions as would, in my estimation, tend to promote the efficiency of the Fire Department and be of interest to your honorable bodies and the public generally.

Accompanying this report is a tabulated statement, giving a record of all fires and alarms that have occurred in the city since the first day of January last, the losses occasioned thereby, the insurance on the same, and the causes of such fires as far as the same could be ascertained.

EXPENDITURES.

The total expenditures for the year amounted to $56,772 74, apportioned among the several companies as follows:

Digitized by Google

Hope Engine Company No. 1	$ 7,897 91
General Grant Engine Company No. 2	7,361 50
Friendship Engine Company No. 3	7,722 78

FORCE OF THE DEPARTMENT.

The force of the Department remains the same as when my last report was made, viz.: One Chief Engineer, one Superintendent fire alarm telegraph, eight foremen, six Engineers, six stokers, seven drivers, and twenty-seven hosemen, divided into companies, as follows: Three engine companies of eight men each, one engine company of seven men, one engine company of six men, one engine hook and ladder company of ten men, one hose company of four men, one hose company of three men.

STEAM FIRE ENGINES.

All of the engines connected with the Department are in good serviceable condition, and consist of six second class Amoskeag engines and two first class Amoskeag engines. The two first class Amoskeag engines are stationed at the Allegheny Engine House, Troy Hill, and are kept in reserve to be used in case of a large fire, or to take the place of any in use by the companies that may become disabled.

HOSE CARRIAGES.

There are in the service of the Department ten hose carriages, eight of which are drawn by one horse each, and two by two horses each. Two of the one horse hose carriages are used as supply carriages, one being stationed at the Hope Engine House, First Ward, and the other at the Grant Engine Company, Third Ward. They are run to fires on the second alarm so that a full supply of hose is at hand should the fire assume any formidable proportions.

There is also connected with the Department one hook and ladder truck fully equipped with ladders, hooks, axes, etc.

BUILDINGS.

The houses of the Department are all in as good order as labor and care can possibly make them. During the year the house for the Ellsworth Hose Company, on River avenue, Eighth Ward, has been erected. It is about completed and ready for occupancy. It is a first class house in every respect, being large, roomy, and convenient.

HORSES.

The number of horses in service in the Department is twenty-seven. Twenty-five of which are used to convey the apparatus to fires, and the remaining two are used as spare horses to be substituted for such of those in use by the companies as may become sick or disabled. The horses are all in good condition.

FIRE ALARMS.

Since the first day of January last the Department has been called out one hundred and eight times. Fifty-six slight fires have occurred and been extinguished by companies located in the vicinity without causing an alarm to be sounded. Making a total of 164 fires and alarms.

FIRES.

The total loss by fires during the year has aggregated the sum of $489,336.22. The principal part of this immense loss was occasioned by the burning of the Exposition buildings on the morning of October 3rd, last, at which fire $377,747.35 of property was destroyed. The only other fire during the past year that involved serious loss was the burning of Jas. Callery & Co.'s tannery, on the evening of November 10th. At this fire the loss was $78,000.00, making a total loss at the two fires of $455,747.35, or over 90 per cent. of the entire loss during the year.

NEW COMPANY.

While I have long known that additional men and apparatus were needed to afford such protection from fire as was required, but, owing to the heavy taxes I have refrained heretofore from recommending the purchase of additional apparatus. But after the Exposition fire, and the fire at Callery & Co.'s tannery, it was apparent that the Fire Department was not of sufficient size to cope successfully with fire once rightly started in large combustible buildings such as the above were, that I would be derelict in the performance of my duty if I longer refrained from asking for an increase of apparatus and the working force. Quite recently an effort has been made

Digitized by Google

looking to the organization of an engine, hook and ladder company, in the Fifth Ward. I am glad to note your action, as far as it went, was favorable to the project inasmuch as councils has ordered the expense of purchasing apparatus for this company, to be taken into consideration in making the estimate of Fire Department expense for the year 1884. As this company is, in my opinion, an imperative necessity for the proper protection of property in this ward, I would suggest to your honorable bodies that such legislation be taken as is required to put this company into service as soon as possible.

The Exposition Fire.

The fire which so suddenly swept away our great Exposition with its hundreds of thousands of property and left black and desolate the scene that before had been so busy and attractive, is one of those complete events that scarcely leaves any room for comment. Hundreds of thousands of dollars worth of the most valuable products of the county locked up in a large frame building (800 by 300) that was nothing less than a tinder box, furnished food for a conflagration that it was impossible to quench. Indeed experts have ventured the opinion that had the entire Fire Departments of both cities been on the ground at the time the first alarm was sounded, it would have been impossible to control the fire, so rapidly did the flames spread over the vast structure. I was at the scene within five minutes from the time the alarm was sounded, and the conflagration had made such progress at this time that I instantly saw that the Exposition building was doomed to destruction. I immediately had the streams so disposed as to cover the property on South avenue, opposite the burning building, and though the heat was so intense at this point that it was a severe test for human endurance, the firemen faced the flames, and though scorched and singed, they never surrendered their positions until they had succeeded in quenching the fire at every house on South avenue, the entire length of the Exposition building, and this at a loss not exceeding $1,500.

Conclusion.

Finally I desire to acknowledge the obligation I am under to Chief Evans and the members of the Pittsburgh Fire

Digitized by Google

Department, who, so kindly, came to our assistance at the burning of the Exposition building.

Before closing this report I would take this opportunity to bear testimony to the exceedingly good conduct of the members of the Department, who have labored most zealously in the discharge of their respective duties.

To the gentlemen constituting the Committee on Fire Engines and Hose I return my sincere thanks for the attention given the requirements of the Department for their uniform courtesy toward me, and the prompt and cheerful manner in which they rendered me every assistance in the discharge of my official duties, and their cordial co-operation in everything tending to the welfare of the Department.

Respectfully submitted,

JAMES E. CROW,

Chief Engineer.

3,	"	16	Wagons.....	Thomas C. O'Neil.....	"	650 00	500 00	NOTE.—The total loss at this fire was $377,747.85, on which there was an insurance paid of $157,118.45. Loss in excess of insurance, $220,628.90. It will be observed in the table of losses that the sum of $30,000.00 is given as the loss of the collection of coin, relics, etc., that was in the relic department. This loss is estimated on what the collection would have probably brought at sale. Although some of the articles were of almost priceless value to the owners. The other losses are as near correct as it was possible to get them, after diligent inquiry. The Exposition books, with list of exhibits, etc., having been destroyed in the fire.

ANNUAL REPORT

OF THE

COMMITTEE ON STREETS AND SEWERS.

CITY OF ALLEGHENY, January 10, 1884.

To the Honorable the Select and Common Councils:

GENTLEMEN:—Your Committee on Streets and Sewers respectfully submit their annual report for the year 1884.

FINANCIAL STATEMENT.

Annual appropriation	$35,000 00
Proceeds of bonds for Herr's Island bridge	17,000 00
Additional appropriation granted	8,000 00
Total	$60,000 00
Contract Herr's Island bridge	$16,015 79
Abutment Lowry street bridge and painting	1,447 49
Repairing Bayard street sewer	1,757 72
Repairing Butcher Run sewer	1,496 73
Cleaning Canal sewer and ripraping	1,424 10
Repairing street for P., A. & M. R'y Co	1,404 59
General expenses	35,934 79
Total	$59,481 21
Balance unexpended	518 79
	$60,000 00

It will be observed by the above statement that we have had some extraordinary expenses not expected, yet it was work that must be done, and we have endeavored to be as economical as possible.

The bill for repairing the streets and avenues traversed by the Pittsburgh, Allegheny and Manchester Passenger Railway has been placed in the hands of the City Solicitor for collection, and when paid will be returned to the City Treasury.

The contracts awarded during the year for new improvements, and which are nearly all completed, are as follows:

Digitized by Google

GRADING, PAVING AND CURBING STREETS, ALLEYS, ETC.

Evans Alley from Fayette to Page Streets.
Evans Alley from Pennsylvania Avenue to Stewart Street.
30 foot street from Irwin to North Avenues.
Ward Street from Fulton to Manhattan Streets.
West Canal Street from Lacock to Robinson Streets.
East Ohio Street from present pavement to Pine Street.
Columbia Place from Irwin Avenue to O'Hern Street.

CONSTRUCTION OF LATERAL SEWERS.

Ohio Street from Union Avenue to Sandusky Street.
Ackley Street from Coffee Street to Strickler Alley.
Dilworth and Cypress Alleys from Freebona's line to Rebecca Street.
Benton Alley from Pump Alley to Race Street.
Coffee Street from Ackley to Jackson Streets.
Young's Alley from present sewer to north line of Mrs. Young's.
Warner Street from Manhattan Street to Railroad.
Lowerie Street from Niggel to Ravine Streets.
Sturgeon and Rebecca Streets from Ridge Avenue to Walker Street.
Page Street from Manhattan to Beaver Avenue.
Slope Alley, Buna Vista and Ackley Streets from Coffee Street to Irwin Avenue sewer.

In addition to the above, the grading of Federal Lane from Federal Street Extension to Morris Street has been completed, as well as the paving of Slush Alley with asphaltum pavement.

We also respectfully report that the iron bridge at Herr's Island has been finished and opened for travel, as well as the improvement to Lowerie Street bridge.

The viaduct across Strawberry Lane, now being erected by the Pennsylvania R. R. Co., is rapidly approaching completion, and will soon be in readiness for travel, and is a substantial and handsome structure.

In conclusion your Committee respectfully refer you to the accompanying reports of the City Engineer and Street Commissioners of the Eastern and Western Districts for full details of our operations. Respectfully submitted,

ROBERT MCAFEE,
Chairman.

ANNUAL REPORT

OF THE

COMMITTEE ON WHARVES AND LANDINGS.

CITY OF ALLEGHENY, *January 11th, 1883.*

To the Honorable the Select and Common Councils:

GENTLEMEN:—Your Committee on Wharves and Landings respectfully present their annual report for year 1883, with the following statement of receipts:

RECEIPTS FOR 1883.

Samuel Sloan, Wharfmaster	$1,763 13
Receipts from leases	481 25
Total,	$2,244 38

Compared with last year.

RECEIPTS.

For 1882,	$2,989 77
For 1883,	2,244 38
Decrease	$745 39

Your Committee, owing to our limited appropriation, have not attempted to make any permanent improvements, but have endeavored to keep the landings in as good order as possible under the circumstances. We had hoped before this time that the Pittsburgh and Western Railroad Company would have carried out their agreement with the city in completing the wharves agreed upon, and in making other improvements stipulated, and though we find them profuse in promises, yet the work is far from being finished. While your Committee are willing to grant that the Railroad Company have had many

Digitized by Google

obstacles to contend with, yet we are of the opinion that they have not in good faith done as much as they could in finishing and completing their contracts, and until they show by their works that they intend to hasten to completion what they have agreed to, we have but little hope of seeing the Wharves and Landings in the condition they should be.

Respectfully submitted.

B. F. RYND,
Chairman.

Annual Report of Committee on Surveys.

City of Allegheny, *January 11th, 1883.*

To the Honorable the Select and Common Councils:

Gentlemen:—Your Committee on Surveys in presenting their annual report for year 1883, are gratified to state that in consequence of the rapid growth of our City, that there has been an increased demand for public improvements, such as the opening of new thoroughfares and the establishing of grades of those already opened, and we confidently look for a still further demand in the future.

We deem it unnecessary to give details of our operations, as the intelligent report of our City Engineer furnishes all the information required, and will give a full detailed statement of our operations, and we respectfully refer you to his comments and suggestions.

Financial Statement.

Annual Appropriation	$1,500 00
Transfer from Contingent Fund	600 00
Total	$5,100 00
Bills Approved	1,952 29
Balance Unexpended	147 71
	$2,100 00

Respectfully submitted,

H. Hunneshagen,

Chairman.

ANNUAL REPORT

OF THE

COMMITTEE ON ROADS.

CITY OF ALLEGHENY, *January 11th, 1883.*

To the Honorable the Select and Common Councils:

GENTLEMEN:—Your Committee on Roads respectfully submit their annual report for year 1883.

FINANCIAL STATEMENT.

Annual Appropriation		$12,000 00
Bills approved	$12,000 00	
Deficit	143 54	
		$12,143 54

During the year we have had many heavy demands from our citizens in various parts of the rural districts asking for improvements, and it has been a difficult problem with your Committee to satisfy all the demands, and we therefore have been as careful as possible to expend our appropriation in the localities where, in our judgment, it would be of the greatest benefit. It would be impossible in our report to state where the work has been done, or its cost, but in the accompanying report of the Road Commissioner, who has had charge of the improvements under our direction, all the information is given in detail, and you will find a description of all our operations.

Respectfully submitted,

G. V. KIMBERLIN,

Chairman.

ANNUAL REPORT

OF THE

COMMITTEE ON WATER.

CITY OF ALLEGHENY, *January 11th, 1883.*

To the Honorable the Select and Common Councils:

GENTLEMEN:—Your Committee on Water respectfully submit their annual report for the year 1883.

The wisdom of your Honorable bodies in authorizing the erection of a pumping station and furnishing the hill and suburban districts with water, has been clearly demonstrated in the success of the enterprise, and the enhanced value of real estate, as well as the large number of new buildings that have been and are now being erected, and the gratifying increase of water revenues.

Although the system has only been partially completed, yet its success is assured, and we look for a very gratifying return for the money invested in the future, and a rapid building up of the districts interested.

The year just closed has been a very active one in our department, and rapid strides have been made towards completing the water system of our City.

The reservoirs have been thoroughly cleaned, repaired and put in first-class condition, and we have been enabled to carry as much as sixteen feet of water, without any indications of leakage.

The tunnel and large influent pipe have been laid and completed, and the well is walled up and everything put in order to supply both the new and old works with an abundant supply of water, and we have no fears of any deficiency in this regard in the future.

Digitized by Google

The contractors for building the new pumping machinery have, with commendable energy, pushed forward their work, and the large and heavy foundations have been entirely completed, ready for the machinery, and are, in our opinion, a first-class and workmanlike job, and reflect credit on the contractors.

The pumping machinery is now beginning to arrive, and the contractors assure us that the whole work will be completed and in running order before the time provided for in the contract, and we will then be assured of an abundant supply of water.

The new building over the pumping machinery will be pushed to completion as soon as the machinery is in place, so that no delay will occur, and the work be all done and completed in the spring.

The connection between the North Avenue and Ohio Street mains, connecting with the large main to be laid to the water basins, has been completed, and the laying of the 36-inch main is progressing rapidly and satisfactorily, and we hope to have all the work done in time to be of service in the spring.

In addition to this we have laid about nineteen thousand (19,000) feet of water mains in different parts of the City, thus increasing the supply, and furnishing our citizens with abundance of water.

In conclusion your Committee deem it unnecessary to enter any further into details, as the accompanying and intelligent reports of the Superintendent of Water Works and Assessor of Water Rents will give all the information required.

Respectfully submitted,

THOMAS BROWN,
Chairman.

REMARKS.

The year of 1883 has been one of considerable importance in the history of the water works. The magnitude of the work done, together with the contemplated improvements under way is of such import to the welfare of the department that I consider it my duty to enlighten your Honorable bodies of the same.

TUNNEL.

The construction of the Tunnel which you placed in my charge, has been completed, after a most trying and discourag-

Digitized by Google

ing experience. The condition of the caving in of the tunnel was of greater magnitude than we had any idea of. I secured the services of Mr. Wm. Gilmore, a gentleman of large experience in such work, and who was highly recommended for his ability as a practical miner. A corps of workmen were employed, and under the directions of Mr. Gilmore, they, with fidelity and perseverance, consummated a work which was considered almost hopeless. But at last we were successful, not only in completing the tunnel, but also in laying the influent pipe, and making all connections with it to the works. In the tabulated statement an exhibit is made of the expenditures for same for the year ending December 31st, 1883.

New Pumping Machinery.

The recommendation made in our report of 1882, requesting your Honorable bodies for an increased pumping capacity, was by you favorably considered, and through advertising, negotiations were entered into with several manufacturers.

The Water Committee at their meeting, held February 5th, received three proposals for new pumping machinery, which were referred to the Sub-Committee on machinery for examination.

The Sub-Committee reported back to the General Committee, recommending the adoption of the Worthington proposition to furnish Allegheny City with three horizontal pumping engines.

The Committee realizing the importance of making a proper recommendation to Councils, concluded to employ the services of experts. A resolution was then passed by the Committee, instructing the chairman to appoint two experts, in connection with the Superintendent of works, to visit other cities, and examine into the merits of the different pumping engines in actual service, and report to the Committee the result of their observations. Messrs. Nuttall, Shinkle and myself were appointed, and we proceeded to attend to the duties imposed on us, we submitted our report to the Water Committee April 16th, 1883, which was received and recommended to Councils for their action. Councils in their wisdom, rejected the report of the experts, and instructed the Water Committee to re-advertise for two vertical pumping engines of a combined capacity of 12,000,000 gallons of water in 24 hours, raised 220 feet high.

Digitized by Google

The Water Committee advertised as per instruction of Councils, and received at their meeting, held June 25th, five propositions for the erection of pumping machinery at water works, viz: Atlas Works, Pittsburgh; Cavitt & McKnight, Pittsburgh; Wilson, Snyder & Co., Pittsburgh; Quintard Iron Works, New York; Holly Manufacturing Co., Troy, N. Y., and E. P. Allis & Co., Milwaukee, Wis. After a thorough criticism by the Committee of the different propositions offered, they decided to recommend to Councils the letting for construction of the new engines to E. P. Allis & Co., of Milwaukee, they to construct two vertical, direct acting, compound condensing, pumping engines, of a combined capacity of twelve million (12,000,000) gallons, of water pumped to reservoir in twenty-four hours, and have a guaranteed duty of ninety-five millions of foot pounds on an evaporation of ten to one. They to construct foundations for same, and erect machinery thereon, and complete the same by the first day of June, 1884, for the sum of $101,625.00.

Councils approved the action of the Committee, and a contract was entered into with E. P. Allis & Co. to proceed and consummate the work.

The contractors proceeded immediately to excavate for foundations, and progressed so well that they completed the foundations for engines during the month of December. The excavations and foundations were done by Messrs. Gwinner & Knox, who produced a job of stonework which will, I have no doubt, bring them great credit. The new machinery, according to reports received, is in an advanced state of completion, and will, I have no doubt, be ready for service at the time stipulated in contract.

Pumping House.

The contract for a new pumping house was awarded by your Honorable bodies to Mr. Samuel Hastings for the sum of $27,977.00, he being the lowest bidder. We expect the completion of this work during the summer.

Pipe Extension

The extension of pipe this year has been greater than it has been for many year's, and I can congratulate Councils on the large increase of revenue accruing therefrom, being in excess

Digitized by Google

of last year's revenue nine thousand dollars, showing a gain of percentage from expenditures for extensions during the year of 23 per cent., demonstrating the wisdom of your Honorable bodies in your liberal outlay. The total number of feet of pipe laid of all sizes during the year is 20,892 feet, being 7,747 feet in excess of last year.

36-Inch Main.

During the month of October the contract for the laying of the new 36-inch main was let to Mr. James Orr, who commenced work on the 5th day of November, and progressed favorably with the same until the condition of weather prevented a continuance of the work. This improvement will be completed in the spring and it will be ready for use before the hot months of summer arrive.

Reservoir.

The reservoir at present is in better condition than for many years. The improvements made during the year have been successful in making it hold water without any perceptible leakage.

Troy Hill Works.

A new boiler was placed in tank house of Troy Hill. This pumping station is in good order.

Howard Street.

Pump works are in excellent condition, and are supplying a large district.

River Avenue Works.

The machinery at these works successfully supplied all the water consumed during the year. The increase of pumpage going on from year to year has been a heavy strain on the machinery, and caused the engines to be worked up to their fullest capacity. The account of expenses of works is in exhibit attached hereto, as well as streets, also the pipe laid and material used, is presented in tabular form.

In closing this report, I cheerfully acknowledge the valuable assistance given me by the members of the Water Committee and the different members of this department, and sincerely tender my thanks to members of Councils for the uniform courtesy given me during the year.

Most Respectfully,

E. Armstrong,

Superintendent Water Works.

ANNUAL REPORT

OF THE

ASSESSOR OF WATER RENTS.

CITY OF ALLEGHENY, *December 31st, 1883.*

To the Honorable the Select and Common Councils of the City of Allegheny:

GENTLEMEN:—I respectfully submit, through your Committee on Water, the following detailed report for 1883:

46 churches,	6 passenger railways,
15 schools,	1 locomotive works,
10 foundries and machine shops,	1 coffin works,
3 cotton mills,	2 spring and axle works,
1 woolen mill,	4 cabinet shops,
3 saw mills,	1 tar chemical works,
1 flour mill,	10 livery stables,
11 tanneries,	6 wagon and plow works,
7 planing mills,	5 dying establishments,
4 rolling mills,	1 bolt and nut works,
3 soap factories,	2 penitentiaries,
2 vinegar works,	5 lead works,
1 pipe mill	3 railway stations,
2 oil mills,	P. F. W. & Chicago R. W.,
3 seminaries,	1 oil refinery,

And a number of miscellaneous shops, cattle yards, slaughter houses, etc.

Assessments on the foregoing amount to	$ 21,744 00
11,138 houses, stores and offices	144,510 93
Total first assessment	$166,253 95

RECAPITULATION.

First ward	$ 17,092 00
Second Ward	36,918 00
Third ward	24,357 81
Fourth ward	24,431 79
Fifth ward	19,866 75
Sixth ward	17,286 90
Seventh ward	7,758 36
Eighth ward	4,196 49
Ninth ward	6,918 75

Tenth ward	$ 295 74
Eleventh ward	857 50
Twelfth ward	2,660 73
Thirteenth ward	3,173 25
Reserve township	439 86
Total first assessment	$166,253 93
Second assessment	1,724 02
Assessment by meters	80 00
Assessment for building purposes, about	2,500 00
Assessment for sprinkling streets	75 00
Collected from circuses	85 00
Total for the year 1883	$170,717 95
Total for the year 1882	161,600 09
Increase over 1882	$9,117 86

The number of families supplied with water is 13,368; an increase over last year of 429.

There has been erected during the year within reach of city water 383 houses, apportioned in the several wards as follows: First Ward, 41; Second Ward, 86; Third Ward, 28; Fourth Ward, 15; Fifth Ward, 85; Sixth Ward, 59; Seventh Ward, 18; Eighth Ward, 4; Ninth Ward, 4; Tenth Ward, 1; Twelfth Ward, 22; Thirteenth Ward, 28.

In concluding my report, I take this opportunity to express my thanks to the members of Councils and the Water Committee for their kindness and support.

Respectfully submitted,

SAMUEL C. GRIER,

Assessor of Water Rents.

Annual appropriation 1883	$24,000 00
Increased appropriation	500 00
Total	$24,500 00
Deficit	160 72
Total number gas lamps January 1st, 1883	1,241
Number erected in 1883	78
Total number of gas lamps	1,319
Number of gasoline lamps January 1st, 1883	254
Number erected in 1883	77
Total number of gasoline lamps	331

Making in all 1,750 gas and gasoline lamps.

It will be seen by a comparison of the above statements, that while the cost of gas furnished has decreased, yet the other expenses have largely increased, showing clearly that the erection, cleaning, repairing and lighting of gasoline lamps in the suburban districts is very expensive, and your committee are seriously considering whether it would not be a matter of economy to lay gas mains in some localities, to lessen the number of gasoline lamps. We are now engaged in ascertaining the cost of laying gas mains, and also in conferring with the Allegheny Gas Company in relation to the matter, and hope in the near future to make some arrangement for making the change.

For further detailed information as to where the labor was performed, where the lamps were erected, &c., we refer you to the intelligent report of the Superintendent of Gas, which accompanies our report.

Respectfully submitted,

ISAAC R. STAYTON,
Chairman.

ANNUAL REPORT

OF THE

GAS DEPARTMENT.

To the Committee on Gas:

GENTLEMEN:—I herewith submit the annual report of Gas Department for the year 1883

The following tables will show you that there was erected during the year seventy-eight gas lamps and seventy-seven gasoline lamps; and there was one hundred and thirty-eight old worn-out square lamps, replaced by the same number of new lamps; and also a number of broken lamps repaired, besides numerous other repairs, too numerous to mention.

Very respectfully,

THOS. H. CARGO,

Superintendent.

Digitized by Google

There were twenty (20) lamp posts broken this year and replaced by new ones, at a cost of two hundred and eighty dollars and forty-eight cents ($280.48).

Bills were made out in seventeen (17) cases and left with the Ordinance Officer for collection, and he has collected one hundred and six dollars and ninety cents ($106.90) of the above amount up to date.

There was one hundred and thirty-eight old square lamps changed for the same number of new globe lamps.

There were seventy-seven (77) gasoline lamps erected this year, making three hundred and thirty-one (331) gasoline lamps; and there were twenty-two (22) gasoline lamps changed to gas lamps, leaving three hundred and nine (309) lamps distributed in the different wards, as follows:

Ward.	Lamps.
Second	20
Third	1
Seventh	13
Eighth	20
Ninth	25
Tenth	80
Eleventh	71
Twelfth	35
Thirteenth	44
Total	309

As to difference in the cost of maintaining gasoline lamps and gas lamps, I would respectfully report the following:

Cost of gasoline lamp for 1883	$17 25
Cost of gas lamp for 1883	7 95
Making a saving in favor of gas of	$9 30

In concluding this report, I would call the attention of the committee to the difference between gas and gasoline, and would recommend that they would do away with gasoline as far as possible.

Thanking this committee for past courtesies, I remain

Yours, &c.,

THOMAS H. CARGO,

Superintendent of the Gas Department

ANNUAL REPORT

OF THE

COMMITTEE ON CITY PROPERTY.

To the Honorable the Select and Common Councils:

GENTLEMEN:—Your Committee on City Property, in submitting their annual report for the year 1883, respectfully state that owing to the fact that the cost of the new Ellsworth Engine House in the Eighth ward has far exceeded our estimate, it has limited our appropriation to such an extent as to prevent us from making many needed improvements, and we have confined ourselves to keeping our city buildings in as good order as possible, and avoiding any unnecessary expenses.

The new engine house has been finally completed, and is a model of neatness as well as convenience, and will meet a long felt want of the Fire Department.

All the other City buildings are in fair repair though some of them need improvements, which we hope to make during the incoming year.

We respectfully submit our financial statement for your inspection.

Annual appropriation	$14,000 00

BILLS APPROVED.

Bills paid of year 1882	$ 29 66
Estimate paid on new engine house	8,720 00
Coke and coal, City buildings	1,025 24
Repairing roofs "	684 03
Furniture, carpets, etc., City buildings	663 00
Painting, paints, oils, etc., "	415 26
Plumbing work, "	359 06
General and incidental expenses	497 69
Lumber	344 54
Carpenter work	330 80

ANNUAL REPORT

OF THE

COMMITTEE ON HEALTH.

To the Honorable the Select and Common Councils:

GENTLEMEN:—Your Committee on Health respectfully submit their report for the year 1883:

FINANCIAL STATMENT.

Annual appropriation	$ 7,000 00
Purchase of hospital building	5,500 00
General expenses	1,302 46
Total	$ 6,802 46
Balance unexpended	197 54
	$7,000 00

The general health of the city during the year has been excellent, and we have as a community been spared from any pestilential or contagious diseases.

Your Committee, however, were of the opinion that it was judicious and wise to prepare for any emergency that may arise, and have therefore purchased a house and two acres of ground on Warren street, Twelfth ward, for hospital purposes, and propose to fit it up and have it ready for occupancy when required.

We respectfully call your attention to the accompanying reports of the City Physician, Health Officer and Meat and Milk Inspector for information in regard to the duties performed by them during the year.

Respectfully submitted,

B. WADDINGTON,

Chairman.

Report of the Health Officer.

City of Allegheny, *January 9th, 1884.*

To the Honorable the Committee on Health:

Gentlemen:—I have the honor to present to you, before its transmission to Councils, this, my annual report, for the year 1883, of the operations of this Department.

The sanitary condition of the City for the past year has been very good; happily no disease in epidemic form has made its appearance. Some excitement occurred on Ridge avenue, between Grant and Allegheny avenues, caused by the breaking out of typhoid fever in that locality, without apparent cause, the place being elevated and well drained, the houses the best, with all the best modern appliances for sanitary purposes. Prominent citizens from the vicinity, and well known physicians in attendance upon the sick, waited upon the Committee, at a regular meeting during the summer and claimed that the fever was caused by the poisonous vapors arising from the garbage and filth deposited on Smoky Island below the approach to the Union bridge and South avenue, the same being a common dump both for Pittsburgh and Allegheny, and asked that some action be taken to remedy the evil. Your Committee instructed me to place watchmen at the dump, to prevent any further dumping of offensive matter, and to disinfect such as had been placed there, which I am glad to say was done to the entire satisfaction of residents of the vicinity and all others who are compelled to pass that way. But three cases of small pox, all of mild type, were reported at this office during the year. In June a female prisoner in the City lock-up took sick with contagious disease, was turned over to me to take care of. The hospital refused to take her in. Your Committee ordered a bed placed in the upper story of City Hall

Digitized by Google

for her use, and there she remained until discharged convalescent. Your Committee, as well as the citizens, have seen the necessity of a proper place to nurse and care for such unfortunates as require to be isolated on account of their sickness.

The endeavors of your Committee during the past year to procure a proper place for a hospital, and the failure, through lack of the necessary funds in Health appropriations to purchase sites selected, are matters of record upon the minutes of your meetings, and not necessary for me to enter into, yet it gives me great satisfaction, as Health Officer, upon whom devolves the responsibility and care of those sick, of such diseases as the law specifies, to say that during the last month of the year, your Sub-Committee, appointed for the purpose, selected a site on Warren street, one and three-fourth acres of ground, with house of eight rooms, for $5,500. The Committee having that amount to their credit in their appropriation for 1883, ordered a warrant drawn for $5,500 purchase money for site selected for hospital for contagious diseases, by the instructions of the Committee. Your Chairman, in connection with the Health Officer, have placed a competent person in the house to take charge of the premises.

During the summer of the past year physicians and others advanced the theory, that fevers were communicated to families by the use of impure milk from the dairies within the City limits. As instructed by your Committee, at a regular meeting, in company with the Milk and Meat Inspector, I visited some 34 places within the City where cows are kept for dairy purposes, the greatest number being east of Cedar avenue and north of Ohio street. In some few cases I found the cows clean and well kept, stables whitewashed, well drained and ventilated. In other cases, mostly on the alleys in the Third ward, cows filthy, crowded in low, bad ventilated stables, surrounded by old rookeries, where the poor animals stood chained by the neck, and panting for breath during the hot days, and giving their daily quota to the public of anything but pure milk. This same milk may account for the fearful mortality among children during the summer.

During the year 430 dead animals were removed from the City. Nuisances, notified of and abated during year, 767, as follows:

577 permits were issued to clean out cess pools, at $1.00 each; 9 transcripts from death register, at 50 cents each, and 6 transcripts from marriage register, at 50 cents each. Cash collections from all sources, $584.50.

Upon certificates of death being filed in this office according to law, 1493 burial permits were issued during the year. For causes of death and other valuable information, I respectfully refer you to report of City Physician. The adoption of the ordinance by Councils, authorizing the Committee on Health to appoint an Assistant and Registry Clerk, to carry out the provisions of the law in regard to the registration of marriages, births and deaths, I find of great advantage, as shown by increased returns as compared with last year.

981 marriages returned and registered. Protestant, 693; Catholic, 209; Magisterial, 79.

1754 births returned and registered. Males, 928; females, 826.

During the year 41 suits were entered against as many different parties for violation of Health laws. Judgment obtained and nuisances abated in each case.

In conclusion, I will take the opportunity of thanking the Committee on Health for uniform kindness and courtesies extended to me.

Respectfully submitted,

JAS. N. HARLAN,
Health Officer.

Penitentiary	3		3	
City Home	3		3	
House of Little Sisters of Poor	1	1	2	
Not stated	3	1	4	
Total	749	744	1,493	

By deducting 89 from the foregoing—that being the number of still-births—we find an actual mortality of 1,404. Estimating the population at 82,000, we find a death rate of 17.1 per 1,000.

The calculation as to mortality in the different wards is based on the assumption that the ratio of increase in population has been uniform throughout the city since the last census.

The following table shows the number of deaths caused by infectious diseases during 1883, as compared with the same during the preceding eight years.

*Deducting still births.

It will be observed that the city has been exceptionally free from infectious or epidemic disease during the past year, not a single death having resulted from smallpox in that time.

During the year I have made eighty-seven visits to the City Lock-up and have vaccinated four hundred and sixty persons.

Respectfully submitted,

J. H. WRIGHT, M. D.,

City Physician.

ANNUAL REPORT

OF THE

MEAT AND MILK INSPECTOR.

To the Honorable the Committee on Health of the Councils of the City of Allegheny:

GENTLEMEN:—I have the honor to submit for your consideration a report of operation in my department for the year ending December 31st, 1883. This being an unusually quiet year, there has been very few complaints made to me, or by myself before the Mayor.

ARTICLES CONDEMNED.

Cattle,	number of heads	5
Hogs,	"	16
Calves,	"	3
Sheep,	"	12
Chickens		72

DRESSED MEATS, ETC.

Beef,	number of pounds	4,875
Veal,	"	72
Pork,	"	113
Mutton,	"	312
Poultry,	"	200
Fish,	"	119
Total		5,691
Milk,	number of gallons	965

At the time of my last annual report there were meat shops in the city 84, since that time there has been eight new ones opened making now 96, independent of the Diamond Market.

In the department of milk I have nothing new to report further than that the only complaints that have been made to me during the year just ending came from persons using milk

Digitized by Google

from dairies situated in the thickly-populated parts of the city, and after making complaint to the Health Committee at different times, the Committee authorized the Health Officer to make an inspection, in company with me, of those dairies, and we did; and for a time it had some effect to clean them up, but in my opinion there should be something done by Councils to have these dairies move out of the thickly-populated parts of the city to more rural locations, as it will be much better for the cows and the milk produced therefrom; then, again, the neighborhood in which the dairies are located will be in a much healthier condition. Hoping some action will be taken the coming year by your honorable Council.

With thanks to the members of the Health Committee, as well as the members of Councils, for the kindness and courtesy extended me, I remain

Yours respectfully,

J. A. DREXLER,
Meat and Milk Inspector.

ANNUAL REPORT

OF THE

COMMITTEE ON MARKETS.

To the Honorable the Select and Common Councils:

GENTLEMEN:—Your Committee on Markets respectfully present their annual report for year 1883.

FINANCIAL STATEMENT.

Annual appropriation		$600 00
Transfer from Contingent Fund		300 00
Total		$900 00
Bills approved	$1,062 92	
Deficit	162 82	
		$1,062 92

The cause of the overdrawn condition of our appropriation was occasioned by the putting in of new water closets in the basement of Clerk's office, which exceeded the amount estimated, but nevertheless was a much needed improvement.

STATEMENT OF RECEIPTS FROM ALL SOURCES UNDER OUR CONTROL, VIZ.:

David Hastings, Clerk of Markets	$12,732 03
G. Wettach, Weighmaster Second Ward Scales	3,595 35
C. Bassett, Weighmaster Diamond Scales	2,641 95
H. Gerwig, Weighmaster Fourth Ward Scales	340 47
Total	$19,309 80

COMPARED WITH LAST YEAR.

Receipts for year 1882	$22,158 16
Receipts for year 1883	19,309 80
Decrease from receipts 1882	$2,848 36

Digitized by Google

By a comparison of last year's report it will be seen that there has been a falling off of receipts from all the Departments, with the exception of the Second Ward Scales, which shows an increase of $17.39.

Decrease from Markets	$2,416 12
Decrease from Diamond Scales	376 36
Decrease from Fourth Ward Scales	73 27

Respectfully submitted,

JAMES RENWICK,
Chairman.

ANNUAL REPORT

OF THE

COMMITTEE ON PUBLIC PARKS.

To the Honorable the Select and Common Councils:

GENTLEMEN:—Your Committee on Parks respectfully present their annual report for year 1883.

FINANCIAL STATEMENT.

Annual appropriation	$15,000 00
Bills approved	14,970 76
Balance unexpended	$29 24

The only permanent improvement made during the year was the construction of new tar walks and the blanketing and repairing of some of the old walks which needed it the most. There are quite a number of the old walks that need repairing, but we could not, with our appropriation, accomplish more than has been done.

Your Committee anticipated a more active state of affairs in our Department during the ensuing year, as we are having plans and estimates prepared looking to the improvement of Monument Hill, and we confidently expect to have possession of the old Penitentiary site, which will require earnest attention, as it will be a question of considerabe interest, what will be the most desirable method of improving the same.

We respectfully call your attention to the accompanying Report of the Superintendent of Park Grounds, which contains in detail all information of the labor performed and the work that has been done during the past year, as well as the cost of the same.

Respectfully submitted,

C. C. HAX,
Chairman.

ANNUAL REPORT

OF THE

SUPERINTENDENT OF PARKS.

To the Park Committee:

GENTLEMEN:—I have the honor to report the cost of maintenance and improvements made in the Public Parks for the year A. D. 1883:

Pay roll of employees, including five policemen	$11,096	39
Lumber for fence and bridge floors	188	54
Plumbing	132	42
Tin and sheet iron work	51	47
Flower pots	24	55
Brick work	33	76
New hose	26	00
Paint, oil, glass and putty	93	95
Blacksmithing	55	04
Hardware	158	72
Insurance for three years on greenhouses	175	00
Plants and seeds	102	35
Food for animals	116	85
New grate bars	18	78
Fertilizer	30	00
Sewer pipes	36	95
Expenses in procuring the Penitentiary ground for Park purposes	316	83
Sundries	65	35
	$12,722	95
New tar walk, permanent improvement	2,271	90
Amount of appropriation unexpended	5	15
	$15,000	00

By reason of the small appropriation for 1882, the Park could not be kept in as good a condition during that year as it had been in previous years, consequently the amount expended for repairs this year has been greater than anticipated.

Digitized by Google

During the present year the bridges over the lake and railroad have had new floors laid, one hundred new trees have been planted, and $2,271.90 have been expended on new tar walks. If we have the same amount of appropriation for the coming year that we had in the year past, we will be able, I hope, to make good, permanent walks in the remainder of the Park, where they are very much needed. There is, lying in the City Treasury, six thousand dollars of unexpended Park Tax, which, by ordinance, has been transferred to the Park Committee, "to be expended by them in permanent improvements." This will be increased by taxes yet unpaid from two to three thousand dollars. I know of no permanent improvement needed so much as a good fence. Your Committee have tried the experiment of doing without fence, and after a thorough trial, I believe you are convinced that a fence is necessary. Our present fence is very unsightly and is fast going to decay, and every year the cost of repairing it is becoming greater. I would recommend that the new fence be made with rails of one and a half inch gas pipe, with locust posts or cast iron posts, set on a stone base.

The Commonwealth having ceded to the City for public park purposes the ground now occupied by the Western Penitentiary, it will be necessary for your Committee, during the coming year to fix upon some plan for improving the grounds, which embraces six and one-half acres. The Act vesting this title in the City goes into effect "as soon as the said buildings, cease to be necessary for penitentiary purposes." It is not expected that the present buildings will be necessary for "penitentiary purposes" after April 1st, 1884, but as it will take time for the Prison Inspectors to remove the buildings and wall, it will not be necessary for the City to expend any money on this ground during this coming year.

W. HAMILTON,
Superintendent.

ANNUAL REPORT

OF THE

BOARD OF DIRECTORS OF THE POOR.

CITY OF ALLEGHENY, *December 31st, 1883.*

To the Honorable the Select and Common Councils:

GENTLEMEN:—The Board of Directors of the Poor would respectfully submit the following report for the year 1883, the thirty-eighth annual report of the Board.

The average number of inmates supported at the Home during the year was two hundred and forty-four and eight-tenths ($244\frac{8}{10}$).

The average yearly cost per inmate was ninety-four dollars eighty-eight and a-half cents ($94.88½), and the weekly cost one dollar eighty-two and a half cents ($1.82½).

The total expenditures for the year was thirty-eight thousand six hundred and twenty-five dollars and sixteen cents ($38,625.16), a decrease of eleven thousand one hundred and forty-three dollars and seven cents ($11,143.07).

The decrease in the expenditures can be accounted for by the healthy condition of the city during the past year; no epidemic whatever has afflicted the city, as was the case the past two years, when smallpox and typhoid fever prevailed, and the winter thus far has been open with no extreme cold weather. Work has been plenty throughout the year, and all desirous to work have been able to find steady employment.

We have, at the Western Pennsylvania Hospital for Insane, at Dixmont, at this date twenty (20) patients.

During the year seventeen (17) children have been placed out by indenture. Of these twelve were indentured to the different orphan asylums, in accordance with Acts of Assembly, and the others were placed in families.

Digitized by Google

Mortgages on eight (8) of the old Poor Farm lots were foreclosed during the year, and the lots reconveyed to the city by Sheriffs' deed. Eight lots have been sold at various times at fair prices.

Since May last a resident physician has been employed at the Home, and all cases of sickness coming under our charge requiring hospital treatment have been sent to the Hospital Department of the Home, instead of to some of the City hospitals, as heretofore.

Owing to the increased number of insane patients we are are obliged to convert the third floor of the west wing of the Poor Department into an intermediate Insane Department for males. The work is being done by inmate labor and will be ready for occupancy within a few weeks.

After January 1st, 1884, all children between the ages of two and sixteen years will not be permitted to remain at the Home for a longer period than sixty days, (this does not include crippled and incurable children). Provision has been made to have them admitted to the several institutions for the care of children in our city, there to remain at the expense of the Board until homes can be provided for them.

The general management of the Home has been conducted with economy and in a very satisfactory manner. The health has been good, the products of the Farm as abundant as could be expected, and harmony has prevailed within the Board and among the employees.

We herewith present the financial statements and the reports of the different officers.

Respectfully submitted,

W. P. PRICE, *Secretary.*

HENRY H. PHILLIPS, *President.*

ANNUAL REPORT

OF THE

SUPERINTENDENT OF THE POOR.

To the Honorable the Board of Directors of the Poor of the City of Allegheny:

GENTLEMEN:—The following detailed statement of the operations of the Home and Farm for the year ending December 31st, 1883, is respectfully submitted:

INMATES.

Number of inmates (sane and insane) remaining in the Home December 31st, 1882		263
Number admitted during 1883	289	
Number born during 1883	11	
		300
		563
Number died during 1883	35	
Number discharged and eloped during 1883	286	
		321
Number remaining December 31st, 1883		242

TRAMPS ASSISTED.

Number of males and females	96
Number of meals furnished	1,027
Number of lodgings furnished	349
Number of hours worked	2,111

INSANE DEPARTMENT.

	Males.	Females.
Number remaining December 31st, 1882	27	48
Number admitted during 1883	22	21
Total	49	69
Number died and discharged	16	22
Number remaining December 31st, 1883	33	47

Average monthly number of inmates	243
Average daily number of inmates	244.8

Digitized by Google

Remarks.

During the year improvements and repairs have been made in and about the building and farm amounting to $2,337.37, as per foregoing report.

These improvements and repairs include the building of a new ice house, remodeling old ice house for a vegetable house, and painting the various departments.

Also, the fitting up of an apartment to be used as a male intermediate insane department, which will be ready for occupancy February 1st, 1884. Also, the placing of fire plugs and connections in convenient places throughout the building, together with the necessary amount of hose. Whitewashing the entire building, cellar walls and floors, all the outhouses and fences, building 3,300 feet of fencing in different places about the Farm, while our carpenters were kept busy with general every-day repairs. You will notice the estimate of the value of our farm products for the year shows a falling off amounting to $1,245.85. This was caused by the extreme wet weather during the season.

In concluding this report, it affords me much pleasure to extend to the members of the Board, and its officers, my most sincere thanks for their uniform courtesy and valuable assistance in the management of the Home, and to the different officers at the Home for their attentive, energetic and courteous deportment.

Most respectfully submitted,

H. C. Richmond,
Superintendent.

Report of the Chaplain.

Hoboken, *December 31st, 1883.*

To the Honorable the Board of Directors of the Poor, of Allegheny City, Pa.:

Gentlemen:—Having been so lately appointed Chaplain of the Home, I can only report as to the services from November 1st, 1883; but I think they are about the same as those held by the late Chaplain, Rev. J. C. High. There has been divine service every Sabbath since the date of my appointment. The attendance of the "inmates" at service has been good, and the attention all we could ask. The German services on the first Sabbath of every month have been continued for the benefit of those that cannot understand the English. There has been special services held in the rooms of those unable to attend the Chapel, when they have requested it. When desired there has been services held at the burial of those that have died at the Home, and the baptism of children has been attended to when requested to do so.

I have been aided in my labor by the kindness of Mr. and Mrs. Richmond, and all the officers and attendants at the Home, to all of which I tender my thanks. My thanks are also due Miss Jenny McRoberts, for her services as organist; Editor *Methodist Recorder*, U. P. Board of Publication, Presbyterian Board of Publication, Editors *Commercial Gazette* and *Evening Telegraph*, for papers donated for the use of the inmates of the Home.

Hoping some good may have been done as the result of our labor, and thanking the Board of Directors for courtesies received, I remain

Respectfully yours,

Jno. Henderson,
Chaplain.

Report of the Resident Physician.

Allegheny City Home, *December 31st, 1883.*

To the Honorable the Members of the Poor Board of Allegheny City:

Gentlemen:—In submitting this, my annual report, I beg to state that the general health of the inmates of the Home during the year has been good, that we have suffered from no contagious disease, or serious accident, except in one case, which caused the death of Alex. Schoote.

That the inmates have been kept clean, comfortably clothed and well fed.

That the officers of the Insane Departments have efficiently and faithfully performed their onerous duties, while the nurses in the Poor Department have been no less efficient and faithful n the discharge of theirs.

That the number of deaths which occurred during the year was 34. Consumption and general debility caused the greatest mortality.

I am pleased to say that our new Intermediate Male Insane Department will soon be ready for occupancy, which will supply a want long felt, by enabling us to classify, and the better treat this poor unfortunate class.

I am pleased to say that the sanitary condition of the Institution is good, that it is kept scrupulously clean, well and comfortably heated, while the ventilation is all that could be desired. That the food has been of good quality, abundant in quantity and well prepared. All of which contributed to the health of the institution and a saving of expense.

And, in conclusion, gentlemen, that we may the better guard against contagion and disease, I would suggest and recommend, that a house separate from the main building be provided for the reception of our dead until time of funeral. All of which is

Respectfully submitted,

M. H. West,

Report of the Physician,

WESTERN DISTRICT.

ALLEGHENY, PA., *January 1st, 1884.*

Board of Directors of the Poor:

GENTLEMEN:—I herewith submit my first annual report for the Western District. As you are aware, my term commenced May 1st, 1883.

During the eight months I made 575 visits and had 127 office calls; total, 702. My predecessor, Dr. Voght, reported a total of 454 visits and office calls for the first four months, making a total for the year of 1,156 visits and office calls. The year just past has been a healthy one in this city; no epidemic or endemic diseases have invaded our bailiwick. Our industrial establishments have been fairly active, and for these reasons, I presume, the services of your physician have been called on less often than usual. I beg leave to offer the following suggestions:

1. That the ward druggists fill prescriptions marked "City" only on the authority of the physician or director of the ward.

2. All prescriptions shall contain the name of the party for whom they are prescribed.

3. District physicians shall report only the visits and office calls for which orders have been received, except "emergency cases," and those emergency cases they shall report at once to the director of the ward and receive authority for further attention.

4. As the new lunacy laws disqualify your physicians from committing insane patients, I would suggest that they still make preliminary examinations, and thus protect the Board from fraud and deception.

Digitized by Google

In conclusion, I wish to return my thanks to the directors for the very courteous treatment received at their hands, and I also wish to say a word for the city poor. They have generally been considered exacting and hard to please. I have endeavored to treat them kindly and make their burden as light as possible, and in return they have one and all seemed to endeavor to give me as little trouble as possible. I have received the enmity and the curses of a few frauds who have endeavored to impose on the Board and through them on the taxpayers of Allegheny City, for all of which I am doubly thankful. Respectfully,

J. W. BELL, M. D.,
Physician Western District.

REPORT OF THE PHYSICIAN,

AT LARGE.

ALLEGHENY, CITY, *January 1st, 1884.*

Board of Directors Allegheny Poor:

GENTLEMEN:—As Physician to your Department, I respectfully submit the following report of services rendered the needy poor of Allegheny City from January 1st, 1883, to January 1st, 1884:

January 1 to April 1	252
April 1 to July 1	201
July 1 to October 1	348
October 1 to January 1	304
Total	1,105

Your attention is called to the great increase of service rendered over last year, and to the fact that this increase carries no significance of other or greater expense to the Board than is required for my service. All medicine was furnished at my expense, and treatment was required in the greater proportion of cases attended.

The increase was owing to the members taking more note of the position occupied by me to the Board, and referring needy patients to me when applied to for medical help. In hardly an instance was any dissatisfaction expressed or manifested toward the treatment, it being accepted with apparent thankfulness in most every instance.

Yours respectfully,

R. V. PITCAIRN, M. D.

ORDINANCES.

AN ORDINANCE

Levying Taxes and making Appropriations for the year 1883.

SECTION, 1. Be it ordained and enacted by the Select and Common Councils of the City of Allegheny, and it is hereby ordained and enacted by authority of the same, That for the purpose of providing sufficient revenue to meet the ordinary expenses of the city, to pay interest on outstanding bonds, and to discharge all other liabilities due or which may become payable during the year 1883, taxes shall be and are hereby levied and assessed upon all the property and other objects of taxation as follows, viz.: Upon all persons and property taxable for State and County purposes in and of the City of Allegheny, a tax of seven [7] mills on the County valuation, for the use of the city aforesaid; also, upon all property taxable for State and County purposes (exclusive of improvement), a tax of one and one-half [1½] mills for sewerage purposes; also, upon all property and persons taxable for State and County purposes, a tax of one and two-tenths [1 2/10] mills for the support of the poor of the city; also, there is assessed and levied upon all sales of goods, wares, merchandise, and upon all articles of trade and commerce, sold in said city by auction, commission merchants or otherwise, a tax of one [1] mill on each dollar of said sales; also, upon all persons and property taxable for State and County purposes, a tax of one fourth [¼] of one mill for the purpose of creating a Sinking Fund for the gradual extinguishment of all bonds and funded debt of the city, not otherwise provided for, and to be known as the Sinking Fund Tax, and shall be applied toward the extinguishment of said bonds and funded debt, and to no other purpose whatever, as provided for by the Act of Assembly, approved March 23d, 1877.

AN ORDINANCE

Fixing the salary of Clerk of Committees at $1,000 per annum.

SECTION 1. Be it ordained and enacted by the Select and Common Councils of the City of Allegheny, and it is hereby ordained and enacted by authority of the same, That from and after the passage of this ordinance the salary of Clerk of Committees be and is hereby fixed at one thousand dollars ($1,000) per annum.

SEC. 2. That so much of any ordinance as may conflict with or be supplied by the foregoing, be and the same is hereby repealed.

Ordained and enacted into a law, in Councils, this 15th day of February, A. D. 1883.

AN ORDINANCE

Providing for the erection of a bridge at Herr's Island.

SECTION 1. Be it ordained and enacted by the Select and Common Councils of the City of Allegheny, and it is hereby ordained and enacted by authority of the same, That the Committee on Streets is directed to advertise for proposals for the erection of an iron bridge over the inner channel of Herr's Island, at Bridge street.

SEC. 2. When said proposals shall have been received, the said Committee shall determine which is the lowest and best bid, and shall report the same, together with all the other proposals, to Councils, together with any other information necessary to enable Councils to let the contract to the lowest and best bidder.

SEC. 3. That so much of any ordinance as may conflict with or be supplied by the foregoing, be and the same is hereby repealed.

Ordained and enacted into a law, in Councils, this 15th day of February, A. D. 1883.

AN ORDINANCE

Granting the Pittsburgh Forge and Iron Company the right to construct a railroad switch across Preble avenue and Spruce street, to connect their works with the Pittsburgh, Fort Wayne and Chicago Railroad.

SECTION 1. Be it ordained and enacted by the Select and Common Councils of the City of Allegheny, and it is hereby ordained and enacted by authority of the same, That the Pittsburgh Forge and Iron Company be and is hereby granted permission to construct a railroad switch across Preble avenue and Spruce street, to connect their works with the Pittsburgh, Fort Wayne and Chicago Railroad, according to accompanying plan. Provided, said switch is constructed in accordance with the terms and conditions of existing ordinances.

SEC. 2. That so much of any ordinance as may conflict with or be supplied by the foregoing be and the same is hereby repealed.

Ordained and enacted into a law, in councils, this 8th day of February, A. D. 1883.

AN ORDINANCE

To authorize the construction of a lateral sewer on Young's alley, from present sewer to Gay alley.

SECTION 1. Be it ordained and enacted by the Select and Common Councils of the City of Allegheny, and it is hereby ordained and enacted by authority of the same, That the Sewer Commission be and they are hereby authorized and directed to invite and receive proposals for the construction of a lateral sewer, located as follows, viz: On Young's alley, from present sewer to Gay alley, and to contract therefor with the lowest and best bidder or bidders, at their discretion.

SEC. 2. That as soon as the cost and expense of said sewer shall be fully ascertained, the same shall be levied, assessed and collected as provided for by an Act of Assembly of the Commonwealth of Pennsylvania, entitled "a supplement to a supplement of the fourth section of an 'Act relating to Allegheny City,' approved March 24th, A. D. 1869."

Digitized by Google

SEC. 3. That so much of any ordinance as may conflict with or be supplied by the foregoing, be and the same is hereby repealed.

Ordained and enacted into a law, in Councils, this 8th day of February, A. D. 1883.

AN ORDINANCE

Authorizing a compromise of the claims of the City for the grading, paving and curbing of Charles street.

SECTION 1. Be it ordained and enacted by the Select and Common Councils of the City of Allegheny, and it is hereby ordained and enacted by authority of the same, That the City Solicitor be and he is hereby authorized to compromise the claims of the City for the grading and paving of Charles street, upon the payment of fifty per cent. on each assessment paid within sixty days from the approval of this ordinance, with interest, cost and commission.

SEC. 2. That so much of any ordinance as may conflict with or be supplied by the foregoing, be and the same is hereby repealed.

Ordained and enacted into a law, in Councils, this 8th day of February, A. D. 1883.

AN ORDINANCE

Granting the Allegheny Incline Plane Company the right to build its Incline Plane across certain streets and alleys, in the City of Allegheny.

SECTION 1. Be it ordained and enacted by the Select and Common Councils of the City of Allegheny, and it is hereby ordained and enacted by authority of the same, That the consent of Councils is hereby given to the Allegheny Incline Plane Company, a corporation chartered by the State of Pennsylvania, to construct its Incline Plane across all intervening streets and alleys, between the southern terminus thereof, on the north side of Sampson street, and the northern terminus thereof, at a point near Linden avenue, on the top of Observatory Hill.

Digitized by Google

SEC. 2. Each crossing shall be by a single span, the abutments of which shall be placed on the inside of the pavement on either side of said streets and alleys. The height of the span across all streets and alleys crossed by said Incline Plane shall be not less than eleven (11) feet in the clear above the grade thereof at the centre of said streets and alleys, except the span across the alley between Sampson and Jackson streets, which may be less than eleven feet; provided, however, if said company should construct said span across said alley at a height less than eleven feet, and should thereby obstruct said alley, then said company shall provide an outlet from said alley, by grading and paving an alley at their own cost and expense, (not less than sixteen feet wide), parallel with its Incline Plane, and at a distance not greater than ten feet therefrom, and extending from said alley, southwardly, to Sampson street, and said company shall enter into a bond with good and sufficient sureties, before commencing work on said Incline Plane, in the sum of ten thousand dollars, to secure its compliance with this proviso.

SEC. 3. Said company shall commence work on said Incline Plane within six months, and complete the same within two years from the passage of this ordinance.

SEC. 4. That for the period of five years after said company shall commence running their cars, they shall not be subject to tax on cars, stock or dividends, and thereafter, said company shall pay to the City Treasurer for each passenger car in use, ten dollars and one (1) per centum on all dividends declared or earned.

SEC. 5. The fare charged by said company shall not exceed five cents, from terminus to terminus.

SEC. 6. This ordinance shall not go into effect until the company shall accept the same by its proper officers, covenanting at the same time, that the failure to comply with any of its provisions shall work a revocation of the privileges by it granted to the said company, and the company shall file said acceptance within ten days from the passage of this ordinance.

AN ORDINANCE

Granting the Western Union Telegraph Company the right to continue a certain line of telegraph poles.

SECTION 1. Be it ordained and enacted by the Select and Common Councils of the City of Allegheny, and it is hereby ordained and enacted by authority of the same, That the Western Union Telegraph Company is hereby granted permission to continue the line of telegraph poles, at present erected along the following route, viz.: Beginning at Railroad and Washington avenue crossing; thence along Washington avenue to O'Hern street and Terrace avenue, to the Observatory.

SEC. 2. This grant is upon the following terms and conditions, viz.: The city shall have the right to use the uppermost cross-bar upon each of said poles for fire alarm or police telegraph purposes.

SEC. 3. Said poles shall, at all times, be kept in good condition, and any pole which the Street commissioner shall condemn shall be removed at once and replaced by another satisfactory to him, and said officer may, at any time when he thinks the same proper, require any of the said poles to be changed to some other location along the line.

SEC. 4. This ordinance, before going into effect, shall be accepted by said company or its agent at this point.

SEC. 5. That so much of any ordinance as may conflict with or be supplied by the foregoing, be and the same is hereby repealed.

Ordained and enacted into a law, in Councils, this 30th day of March, A. D. 1883.

AN ORDINANCE

Authorizing the Pennsylvania Company and the Pittsburgh, Fort Wayne and Chicago Railroad Company to construct an iron or steel viaduct across their road, at Strawberry lane, from the junction of Strawberry lane and California avenue to the east side of Wayne street.

SECTION 1. Be it ordained and enacted by the Select and Common Councils of the City of Allegheny, and it is hereby ordained and enacted by authority of the same, That the Pennsylvania Company and the Pittsburgh, Fort Wayne and Chicago Railway Company are authorized to construct an iron or steel viaduct across their road at Strawberry lane, from the junction of Strawberry lane and California avenue to the east side of Wayne street, with an approach from the north end of Chartiers street to said viaduct at Wayne street, and an iron stairway at the southwest end of the viaduct leading towards Strawberry lane. The viaduct to be thirty-seven and one-half (37½) feet wide, with a sidewalk of equal width on each side, and a wagon road of twenty-four (24) feet in the clear; the approach towards Chartiers street to be thirty-three (33) feet wide, with one sidewalk of nine (9) feet on the western side and a cartway of twenty-four (24) feet in the clear, and having a grade of six and five-tenths (6.5) per hundred; the stairway leading towards strawberry lane to be six (6) feet wide. All these structures to be provided with strong, substantial railings on both sides for the entire length, and the structures themselves to be strong and substantial in all their parts. At the northeast end of the viaduct, or at the junction of Strawberry lane and California avenue, the streets to be raised to the level of the floor of the bridge, in order to form approaches to the same, said approaches to be graded for the entire width of the streets, with grades as follows: For California avenue, northward, four (4) feet per hundred; for California avenue, southward, seven (7) feet per hundred, and for Strawberry lane, seven (7) feet per hundred. The said viaduct to be kept in repair by said companies.

SEC. 2. Said viaduct shall be begun within thirty (30) days from the approval of this ordinance, and the whole work, including the approaches, to be completed within one year thereafter.

RESOLUTION

Authorizing the Committee on Water to award the contract for furnishing complete, with pit and foundations for engine house, two (2) Three-Cylinder Compound Condensing Pumping Engines, to Edward P. Allis & Co., Milwaukee, Wisconsin.

Resolved, By the Select and Common Councils of the City of Allegheny, That the Committee on Water be and they are hereby authorized to award the contract for furnishing two (2) Three-Cylinder Compound Condensing Pumping Engines, complete, with pit and foundations for engine house, to Edward P. Allis & Co., of Milwaukee, Wisconsin, for the sum of one hundred and one thousand six hundred and twenty-five ($101,625.00) dollars, as per accompanying plans and specifications, marked "A." *Provided*, That no estimate be paid until the work is completed and the Engines have been accepted by said Committee.

I hereby certify that the foregoing Resolution was adopted by the Select and Common Councils, July 18, 1883, and approved by the Mayor, July 19, 1883.

ROLAND T. WHITE,
Clerk of Select Council.

AN ORDINANCE

For the enlightenment of Councilmen, and giving them time to read and consider that which they will be called on to vote upon.

SECTION 1. Be it ordained and enacted by the Select and Common Councils of the City of Allegheny, and it is hereby ordained and enacted by authority of the same, That the Messenger or Message Clerk be and he is hereby directed to place in the hands of each Councilman, or to deliver at his office or residence, a printed duplicate of every ordinance which is to be acted upon at least two days prior to every meeting of Councils.

SEC. 2. That the Clerk of Committees is hereby prohibited from placing on the files of Councils any ordinance recommended by Committees, unless the same has been printed a sufficient time to carry out the provisions of the first section of this ordinance.

Digitized by Google

SEC. 3. That so much of any ordinance as may conflict with or be supplied by the foregoing, be and the same is hereby repealed.

Ordained and enacted into a law, in Councils, this 12th day of July, A. D. 1883.

AN ORDINANCE

Authorizing the grading, paving and curbing of West Canal street, from Lacock street to Robinson street.

SECTION, 1. Be it ordained and enacted by the Select and Common Councils of the City of Allegheny, and it is hereby ordained and enacted by authority of the same, That the Committee on Streets be and they are hereby authorized and directed to invite and receive proposals for the grading, paving and curbing of West Canal street, from Lacock street, to Robinson street, and to contract therefor with the lowest and best bidder or bidders, at their discretion.

SEC. 2. That for defraying the cost and expenses of the same, there is hereby levied a special assessment, (said assessment to be made and collected as provided by the Act of Assembly entitled an "Act relative to Streets in the City of Allegheny," approved April 1st, 1870.)

SEC. 3. That so much of any ordinance as may conflict with or be supplied by the foregoing, be and the same is hereby repealed.

Ordained and enacted into a law, in Councils, this 18th day of July, A. D. 1883.

AN ORDINANCE

Providing for the grading of approach to Prospect street, of a width of 20 feet, from Troy Hill Road to old line of said Prospect street.

SECTION. 1. Be it ordained and enacted by the Select and Common Councils of the City of Allegheny, and it is hereby ordained and enacted by authority of the same, That the Committee on Streets is directed to advertise for proposals for the approach to Prospect street of a width of 20 feet, from Troy Hill road, to old line of said Prospect street.

Digitized by Google

SEC. 2. When said proposals shall have been received, the said Committee shall determine which is the lowest and best bid, and shall report the same to Councils, together with all the other proposals, to award the contract.

SEC. 3. That in consideration of the foregoing section, and after the passage of this ordinance, and before the contract is let for doing the work, the heirs and assigns of Nicholas Voegtley, Sr., shall re-lease to the City all the right, title and interest in a certain twenty-foot road, as reserved in deed to the city, recorded in vol. 77, page 115, running along the brow of the hill, between Troy Hill road and the water basin, and connecting with Return street.

SEC. 4. That so much of any ordinance as may conflict with or be supplied by the foregoing, be and the same is hereby repealed.

Ordained and enacted into a law, in Councils, this 18th day of July, A. D. 1883.

AN ORDINANCE

Abolishing the office of Messenger of Councils—providing for the appointment of a Message Clerk—defining his duties and fixing his salary.

SECTION 1. Be it ordained and enacted by the Select and Common Councils of the City of Allegheny, and it is hereby ordained and enacted by authority of the same, That from and after the passage of this ordinance, the office of Messenger of Councils be and is hereby abolished.

SEC. 2. That the Clerk of Committees be and he is hereby authorized to appoint a Message Clerk, who shall act as Page of Select Council, call meetings of Councils and Committees, by postal cards, or otherwise, if ordered, deliver Messages and perform such other duties as now devolves on the Messenger, and assist the Clerk of Committees in his office, as he may direct.

SEC. 3. The salary of the Message Clerk be and is hereby fixed at six hundred ($600) dollars per annum.

Digitized by Google

SEC. 4. That so much of any ordinance as may conflict with or be supplied by the foregoing, be and the same is hereby repealed.

Ordained and enacted into a law, in Councils, this 9th day of August, A. D. 1883.

AN ORDINANCE

To authorize the construction of a lateral sewer on Sturgeon street, from Ridge avenue to Rebecca street, thence along Rebecca street to Walker street.

SECTION 1. Be it ordained and enacted by the Select and Common Councils of the City of Allegheny, and it is hereby ordained and enacted by authority of the same, That the Sewer Commission be and they are hereby authorized and directed to invite and receive proposals for the construction of a lateral sewer located as follows, viz.: On Sturgeon street, from Ridge avenue to Rebecca street; thence along Rebecca street to Walker street, and to contract therefor with the lowest and best bidder or bidders, at their discretion.

SEC. 2. As soon as the cost and expense of said sewer shall be fully ascertained the same shall be levied, assessed and collected as provided by an Act of Assembly of the Commonwealth of Pennsylvania, entitled "A supplement to a supplement of the fourth section of an act, entitled 'An Act relating to Allegheny City, approved March 24th, A. D. 1869.'"

SEC. 3. That so much of any ordinance as may conflict with or be supplied by the foregoing, be and the same is hereby repealed.

Ordained and enacted into a law, in Councils, this 13th day of September, A. D. 1883.

AN ORDINANCE

To authorize the construction of a lateral sewer on Lowry street, from Niggle street to Ravine street sewer.

SECTION 1. Be it ordained and enacted by the Select and Common Councils of the City of Allegheny, and it is hereby

ordained and enacted by authority of the same, That the Sewer Commission be and they are hereby authorized and directed to invite and receive proposals for the construction of a lateral sewer, located as follows, viz.: On Lowry street, from Niggle street to Ravine street sewer, and to contract therefor with the lowest and best bidder or bidders, at their discretion.

SEC. 2. That as soon as the cost and expense of said sewer shall be fully ascertained the same shall be levied, assessed and collected, as provided for by an Act of Assembly of the Commonwealth of Pennsylvania, entitled "A supplement to a supplement of the fourth section of an Act, entitled an 'Act relating to Allegheny City,' approved March 24th, A. D. 1869."

SEC. 3. That so much of any ordinance as may conflict with or be supplied by the foregoing, be and the same is hereby repealed.

Ordained and enacted into a law, in Councils, this 13th day of September, A. D. 1883.

AN ORDINANCE

Regulating the Gas Department of the City of Allegheny.

SECTION 1. Be it ordained and enacted by the Select and Common Councils of the City of Allegheny, and it is hereby ordained and enacted by authority of the same, That the Committee on Gas be and they are hereby authorized to appoint a suitable person to take charge of and superintend the erection of gas and gasoline posts and lamps when ordered and to have a general supervision of the Gas Department, under the direction of the Committee on Gas.

SEC. 2. Any person or persons or corporation, or any person in the employ of any corporation, who shall in any manner injure, break or destroy any gas or gasoline lamp or post, shall, on conviction thereof, pay a fine not less than five ($5) dollars, nor more than one hundred ($100) dollars. The collection of said fine shall be by summary proceedings.

Digitized by Google

SEC. 3. It is hereby made the duty of the police severally to report to the Superintendent of Gas, all instances of injury to any public gas or gasoline lamps or posts, and when and by whom the said injury was done; also, instances when said lamps are out of order and do not burn properly, and the night police may severally make their reports to the Superintendent of Gas, through the Captain of the Watch.

SEC. 2. That so much of any ordinance as may conflict with or be supplied by the foregoing, be and the same is hereby repealed.

Ordained and enacted into a law, in Councils, this 13th day of September, A. D. 1883.

AN ORDINANCE

Authorizing the Committee on Health to appoint Assistant to the Health Officer, or Register Clerk, defining his duties and fixing his salary.

SECTION 1. Be it ordained and enacted by the Select and Common Councils of the City of Allegheny, and it is hereby ordained and enacted by authority of the same, That on and after the passage of this ordinance, the Committee on Health be and they are hereby authorized to appoint an assistant to the Health Officer or Register Clerk, who shall be under the direction of the Health Officer.

SEC. 2. That it shall be the duty of the Assistant of the Health Officer or Register Clerk to keep a complete record of the marriages, births and deaths, in a manner and form required by Act of Assembly, enacted into a law the 7th day of June, A. D. 1881, and approved by Council July 13, 1882, to issue permits for burials, to require parties interested to comply with all the provisions of said Act of Assembly and to perform such other duties as the Health officer may direct.

SEC. 3. That the salary of the Assistant to the Health Officer or Register Clerk be and is hereby fixed at six hundred ($600) dollars per annum, and the same shall be paid out of Appropriation No. 17, Sanitary, until January 1, 1884, and thereafter out of Appropriation No. 1, Salaries.

SEC. 4. That so much of any ordinance as may conflict with or be supplied by the foregoing be and the same is hereby repealed.

Ordained and enacted into a law, in Councils, this 13th day of September, A. D. 1883.

AN ORDINANCE

For the vacation of a portion of Bell avenue, Twelfth ward.

WHEREAS, By reason of the grading of Federal street extension, a portion of Bell avenue between said Federal street extension and Lombard street, has become impassable and dangerous, and no necessity exists for continuing the same open; therefore,

SECTION 1. Be it ordained and enacted by the Select and Common Councils of the City of Allegheny, and it is hereby ordained and enacted by authority of the same, That so far as the power of the City extends in the premises, that portion of Bell avenue in the Twelfth ward, between Federal street extension and Lombard street, be and is hereby closed and vacated.

SEC. 2. As a consideration for said vacation, James Andrews, Esq., shall, at his own expense, construct a sewer, connecting with the sewer or culvert on Federal lane, and extending to the junction of Bell avenue and Lombard street, at such point as will carry off the drainage of said streets; and said James Andrews shall also provide all necessary inlets and man-holes. The whole work shall be done under the supervision of the City Engineer, and to his satisfaction, as regards the character of the sewer inlets, man-holes, their size, and the execution of the work, and the City reserves the right to enter upon the land in which said sewer is located, at all times, for the purpose of repairing, reconstructing and cleaning the same.

SEC. 3. Said sewer shall be completed to the satisfaction of the City Engineer, before the vacation before provided for shall take effect.

AN ORDINANCE

Granting the Postal Telegraph Company certain privileges for construction of its line, and imposing terms and conditions therefor.

SECTION 1. Be it ordained and enacted by the Select and Common Councils of the City of Allegheny, and it is hereby ordained and enacted by authority of the same, That the Postal Telegraph Company is hereby authorized to erect a line of telegraph over and along the following route, viz.: Beginning at the Perrysville plank road, at the head of Arch street steps; thence along said steps to Jefferson street; thence along Jefferson street to Fairmount street; thence along Fairmount street to Fountain street; thence along Fountain street to Sandusky street; thence along Sandusky street to north side of Montgomery avenue; thence along Montgomery avenue to east side of Union avenue; thence along Union avenue to south side of Stockton avenue; thence along Stockton avenue to Federal street; thence along Federal street by underground conduit to the Suspension Bridge; and also to erect a line along North Diamond street, from Union avenue to Federal street.

SEC. 2. The said Company, on Federal street, shall use such kind and size of cable as shall be approved by the Street Committee, and shall place the same in such position as may be directed by said Committee, and shall, at the completion of the work, restore the street to its former condition, to the satisfaction of the Street Commissioner.

SEC. 3. The City reserves the right to grant to other corporations, companies or individuals, the right to place additional wires on said conduit on Federal street, upon the payment of just compensation for said use, which compensation shall, in case of disagreement, be fixed by three arbitrators, one to be chosen by each party, and the City Engineer to be the third.

SEC. 4. In the erection of its lines said Company shall erect poles of a uniform size in height and thickness. Said poles shall be straight, even, cleanly shaven and painted, not less than forty feet in height, and not less than sixteen inches in diameter at the bottom or lower end, and shall be erected under the super-

Digitized by Google

vision of the Street Commissioners and Street Committee, and shall be placed in such positions as said Committee and Commissioners may designate.

SEC. 5. Said poles shall be kept at all times in good condition, and any of said poles becoming unsafe, in the judgment of the Street Committee, shall be removed and re-placed by others, and any of said poles shall be removed to other positions whenever said Committee shall deem the same necessary for public convenience.

SEC. 6. The said Company shall place two wires on the upper cross-bar of each of the poles hereby authorized, the same to be for the use of the Fire Alarm Telegraph, and shall also place one wire for the same use in the conduit on Federal street.

SEC. 7. The said Company shall pay to the City a license of $1 per annum for each of said poles erected, the first payment to be made within thirty days from the erection of said poles, and annually thereafter.

SEC. 8. Said Company shall keep open an office in said city, at all hours, day and night, and shall deliver all city messages without extra charge.

SEC. 9. In case said Company shall at any time become consolidated or merged in any other competing line, or cease to be in good faith a competing line, all the rights and privileges herein granted shall cease and determine, and the city may take possession of the wires, poles and cables erected under this ordinance.

SEC. 10. The city reserves the right from time to time hereafter to impose other terms or conditions to make such changes or modifications of this ordinance as they may deem the public interest to require.

SEC. 11. This ordinance shall not go into effect until said company shall have filed with the Comptroller a certified copy of a resolution of its Board accepting the provisions of this ordinance and agreeing that a breach or refusal to comply with any of the terms and conditions therein expressed shall work an immediate forfeiture of said privileges, and should such resolution not be filed within thirty days of the approval of this ordinance the privileges hereby granted shall cease and determine.

Authorizing the Directors of the Poor to sell a certain lot in Old Poor Farm Plan, and make a deed for the same.

SECTION 1. Be it ordained and enacted by the Select and Common Councils of the City of Allegheny, and it is hereby ordained and enacted by authority of the same, That the Directors of the Poor be and they are hereby authorized to sell lot No. 25, block No. 10, Old Poor Farm Plan, and make a deed for the same to David Jeffreys, for the sum of one hundred and fifty ($150) dollars.

SEC. 2. That so much of any ordinance as may conflict with or be supplied by the foregoing be and the same is hereby repealed.

Ordained and enacted into a law, in Councils, this 13th day of December, A. D. 1883.

AN ORDINANCE

Authorizing the issue of $75,000 Renewal Sewer Bonds.

SECTION 1. Be it ordained and enacted by the Select and Common Councils of the City of Allegheny, and it is hereby ordained and enacted by authority of the same, That the Comptroller be and he is hereby authorized to prepare, issue and negotiate under the provisions of existing ordinances, registered bonds to an amount not exceeding seventy-five thousand ($75,000) dollars for the purpose of lifting the same amount of Sewer Bonds, due February 12, 1884, said bonds to be designated "Renewal Sewer Bonds," and to be of the denomination of one thousand (1,000) dollars each, and shall be payable in twenty (20) years from the 1st day of January, 1884, and shall bear interest at the rate of 4 per cent. per annum, payable semi-

Digitized by Google

annually, on the 1st days of July and January in each year, at the office of the City Treasurer, in the City of Allegheny, Pa.

SEC. 2. Said bonds shall be signed by the Mayor and Treasurer, and countersigned by the Comptroller, and the same shall be sold as provided for by existing ordinances of the city.

SEC. 3. That so much of any ordinance as may conflict with or be supplied by the foregoing, be and the same is hereby repealed.

Ordained and enacted into a law, in Councils, this 28th day of December, A. D. 1883.

AN ORDINANCE

Fixing the salary of the Clerk in the Treasurer's Office.

SECTION 1. Be it ordained and enacted by the Select and Common Councils of the City of Allegheny, and it is hereby ordained and enacted by authority of the same, That from and after the passage of this Ordinance the salary of the Clerk in the Treasurer's Office be and is hereby fixed at twelve hunded dollars per annum.

SEC. 2. That so much of any ordinance as may conflict with or be supplied by the foregoing be and the same is hereby repealed.

Ordained and enacted into a law, in Councils, this 28th day of December, A. D. 1883.

AN ORDINANCE

Authorizing Hunter & Geyer to change the location of switch on River avenue, First Ward.

SECTION 1. Be it ordained and enacted by the Select and Common Councils of the City of Allegheny, and it is hereby ordained and enacted by authority of the same, That Messrs. Hunter & Geyer be authorized to change the location of their switch on River avenue in front of the Coliseum lot, as shown

Digitized by Google

on accompanying plan, and according to existing ordinances, and shall be used solely for the business of said Hunter & Geyer, nor is said switch to be used for loading or unloading cars or standing cars.

SEC. 2. The above privilege shall not be so construed as to authorize Messrs. Hunter & Geyer to continue their switch as at present constructed, but the present switch shall be removed as soon as the new switch is completed, and the ground restored to its former condition by said Hunter & Geyer.

SEC. 3. That so much of any ordinance as may conflict with or be supplied by the foregoing, be and the same is hereby repealed.

Ordained and enacted into a law, in Councils, this 28th day of December, A. D. 1883.

AN ORDINANCE

Naming a Street opened October 12, 1882, extending from New Brighton Road to Superior Run Avenue, Eleventh Ward, to Home Street.

SECTION 1. Be it ordained and enacted by the Select and Common Councils of the City of Allegheny, and it is hereby ordained and enacted by authority of the same, That a street opened October 12, 1882, extending from New Brighton road to Superior Run avenue, Eleventh ward, be and is hereby named Home street.

SEC. 2. That so much of any ordinance as may conflict with or be supplied by the foregoing, be and the same is hereby repealed.

Ordained and enacted into a law, in Councils, this 28th day of December, A. D. 1883.

AN ORDINANCE

Changing the name of Superior Run avenue, Eleventh ward, to Superior avenue.

SECTION 1. Be it ordained and enacted by the Select and Common Councils of the City of Allegheny, and it is hereby

Digitized by Google

ordained and enacted by authority of the same, That the name of Superior Run avenue, Eleventh ward, be and is hereby changed to Superior avenue.

SEC. 2. That so much of any ordinance as may conflict with or be supplied by the foregoing, be and the same is hereby repealed.

Ordained and enacted into a law, in Councils, this 28th day of December, A. D. 1883.

AN ORDINANCE

Establishing the grade of River avenue, from Federal street to Balkham street (north curb line.)

SECTION 1. Be it ordained and enacted by the Select and Common Councils of the City of Allegheny, and it is hereby ordained and enacted by authority of the same, That the grade of River avenue, from Federal street to Balkham street, be and the same is hereby established as follows: Beginning on the west side of Federal street at an elevation of thirty-seven and seven one-hundredths (37 07) feet above city datum; thence descending at the rate of five and twenty-five one-hundredths (5.25) feet per hundred to the east curb of Balkham street.

SEC. 2. That so much of any ordinance as may conflict with or be supplied by the foregoing be and the same is hereby repealed.

Ordained and enacted into a law, in Councils, this 28th day of December, A. D. 1883.

AN ORDINANCE

Authorizing the opening of Fleming Avenue, from McClure Avenue to Davis Avenue.

SECTION 1. Be it ordained and enacted by the Select and Common Councils of the City of Allegheny, and it is hereby ordained and enacted by authority of the same, That Fleming avenue, from McClure avenue to Ashton avenue, be

Digitized by Google

and is hereby opened of a width of 40 feet and from Ashton avenue to Davis avenue of a width of 50 feet, according to accompanying plan, and that James McFarland, A. M. Marshall and James L. Graham, freeholders, be and they are hereby appointed viewers to view the premises, appraise the damages and make assessments of benefits, as provided by Act of Assembly, approved the 1st of April, 1870, entitled "An Act relative to streets in the City of Allegheny."

Ordained and enacted into a law, in Councils, this 28th day of December, A. D. 1883.

AN ORDINANCE

Authorizing the opening of Painter Alley, from West Penn Railroad to Main Street.

SECTION 1. Be it ordained and enacted by the Select and Common Councils of the City of Allegheny, and it is hereby ordained and enacted by authority of the same, That Painter alley, from West Penn Railroad to Main street, be and is hereby opened of a width of 12 feet, according to accompanying plan, and that Joseph H. Elton, John K. Brown and Isaac Hippely, freeholders, be and they are hereby appointed viewers to view the premises, appraise the damages and make assessments of benefits, as provided by Act of Assembly approved the 1st of April, 1870, entitled "An Act relative to streets in the City of Allegheny."

Ordained and enacted into a law, in Councils, this 28th day of December, A. D. 1883.

AN ORDINANCE
